

## DAIRYMEN OF STATE TO ASK LEGISLATION

Food and Dairy Bureau. With  
\$15,000 Appropriation. Is  
Wanted.

Leading dairymen of the state will go before the legislature and ask for a bill creating a state food and dairy bureau. Incidentally they will ask for an appropriation of \$15,000 to put the proposed bureau upon a working basis.

This was decided on at a meeting of several dairymen with State Food and Dairy Commissioner John Peterson in Mr. Peterson's office in the joint building, Tuesday afternoon. The bureau as proposed is to consist of seven members. The governor, state food and dairy commissioner and state chemist will be ex-officio members of the bureau. The other four members are to be selected by the governor from among state associations of food industries upon their recommendation.

The governor is to exercise his own discretion in making these appointments if there are no such state associations from which to make selections, but it is the intention of the originators of this idea to establish this bureau that dairymen, dealers in food products, manufacturers of food products, and the livestock and slaughter industry shall be represented on the bureau by one member each.

The bureau is to make regular reports of the work to the legislature. It will lay down and enforce regulations and restrictions against these industries and organize associations all over the state as an education for the production of better and purer foods; in fact, the bureau will largely have control of enforcing the pure food laws of the state. Inspectors for all food industries will be appointed by it, including canning factories, cheese factories, packing plants and dairies.

The first draft of the bill was made at the meeting Tuesday afternoon. Another meeting will be held soon to perfect the bill for presentation to the legislature.

## OLD-TIMERS TALK OF THE LATE J. D. WOOD

Alex. Topone of Ogden and J. E. O'Connor, a business man of Montpelier, Idaho, are at the Cullen, having come to Salt Lake for the funeral of the late J. D. Wood.

Both these men knew Mr. Wood in the early days in the west. Mr. Topone first met the late J. D. Wood in Montana, and Mr. O'Connor in Challis, Idaho, where Mr. Wood ran a mercantile business in 1866. At that time Mr. Wood had secured a number of valuable gold properties that later gave him a considerable start for his later fortune. Mr. Topone stated that when Mr. Wood first arrived in Montana he had but little money and had hauled bull trains from Missouri. He had all the grit that made successful frontiersmen, however, and he began early to succeed. Where there was a fighting chance to win, he always made the venture, and he met with but few failures.

Mr. Wood became the greatest sheepman in all Idaho, and year after year he came out with a higher grade of stock. He had learned the sheep business on a small scale in his boyhood days in Missouri, and he applied his early experience to the industry in Idaho with practical success. He had invaded the Montana ranges with some of his flocks, and shortly became known as the sheep king of Idaho and Montana.

## To Enforce Amendments.

To enforce the constitutional amendments passed by the recent general elections, providing for the assessment of the net proceeds of mines, some more legislation is necessary, the state board of equalization decided, at its initial meeting of the year in the governor's office Tuesday afternoon, and legislation to make the amendments effective will be recommended to the legislature by the board. This was the only matter of importance considered by the board Tuesday.

## AN M. D. ON KIDNEY DISEASE

Writing on kidney disease, the medical term for which is nephritis, Dr. J. W. Chismond says in the "MEDICAL BRIEF":

"In its incipency it is as curable as any malady that the system is heir to. IN ITS SECONDARY STAGE WE POSSESS NO SPECIFIC FOR ITS RAVAGES."

Where does that leave the kidney medicines you have been taking?

And just as we have said over and over, it doesn't make much difference what you call kidney trouble, if it fastens, physicians and druggists have had no successful remedy for it. True, it commonly gets well at first, but if it does not, it enters the second stage that will be incurable up to the discovery of Fulton's Renal Compound, which is the first thing known to reduce inflammation in kidney tissues.

When does the second stage commence? Dr. Chismond says: "IT DEVELOPS SO UNCONSCIOUSLY IT IS AS A RULE FAR ADVANCED BEFORE IT IS DISCOVERED."

In view of these acknowledged facts, people with kidney trouble should do some very serious thinking before taking futile kidney medicines under which the kidney deaths have risen to over 170 per day. Even if the inflammation is in the first stage, a course of futile medicine is delay that develops the very condition that Dr. Chismond says is "irreparable," and that was irreparable up to the date of Fulton's beneficial discovery.

If you have kidney trouble, either starting or seated, how can there be any question about your taking the only known specific for inflammation of the kidneys, which, incipient or chronic, is the real difficulty with kidney troubled people?

## THIS BACKACHE RECIPE WILL ALSO CURE KIDNEY TROUBLE

To make up enough of the "Dandelion treatment," which is claimed to be relieving nearly every sufferer who uses it for backache, kidney complaint, sore, weak bladder and rheumatism; get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Karsarion and three ounces Compound Syrup of Sarsaparilla. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

Those who have tried it claim that it acts gently but thoroughly on the kidneys, relieving backache and bladder trouble and urinary difficulties before you realize it. Many cases of rheumatism are known to have been

relieved within a few days, the pain and swelling diminishing with each dose.  
This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

nominal desired by those who wish to prevent the incoming of Japanese laborers has been achieved.

## More Go Than Come.

"More Japanese are leaving the country than are coming in, and by present indications in a very few years the number of Japanese here will be no greater than the number of Americans in Japan; that is, the movement will be as normal in one case as in the other, which is just as we wished. There is, therefore, no shadow of excuse for action which will simply produce great irritation and may result in upsetting the present agreement and throwing open the whole situation again."

"These agitators have themselves to thank if trouble comes from what they do, if there is any rush or influx of Japanese hither. They hamper the national government in what it has now so effectively accomplished—the agreement, by peaceful means, and through the friendly initiative of the Japanese government to keep Japanese immigrants out of the United States, save as Americans themselves visit Japan. Is it not possible to get the legislature to realize the great wisdom of the standpoint of the country at large, and above all, from the standpoint of California, of what is being done? Sincerely yours,"

## CAUGHT AFTER CHASE ACROSS CONTINENT

Alleged Swindler Run Down by  
Man Who Claims to Have  
Been Victimized.

After searching the country from ocean to ocean for more than four years past, George L. Gardner, engaged in the lumber business in Seattle, Wash., who is visiting in this city for a few days, ran across George Ringling, alias George Coin, alias A. Dorson, shortly after midnight Wednesday morning, and caused his arrest. Mr. Gardner alleges that some four years ago, in New Orleans, Ringling secured money from his (Gardner's) father under false pretenses for forging his name. Gardner also says that Ringling lived together at a hotel in New Orleans, and in that way secured money which had been sent to him from his father.

Since that time the two have been parted, and Mr. Gardner says he has searched for Ringling from one side of the country to the other. Mr. Gardner came to this city several days ago, accompanied by his wife, and is staying at the Wilson hotel. It was while going to their room at the hotel that he came across Ringling. Ringling, he says, did not know him, but he told his wife he wanted to see a man a minute, and immediately sent for an officer. Ringling was arrested on a charge of securing money under false pretenses.

## AMERICAN COAL MINERS HOLDING BIG CONVENTION

INDIANAPOLIS, Ind., Jan. 19.—The American coal miners' twentieth annual convention, which President Woodrow Wilson called to order today, developed into one of the largest national conventions the miners have ever held. Between 1100 and 1200 delegates were seated in the hall for the opening session, and the attendance promises to surpass that of two years ago, which had a record of 1301 delegates.

Factional differences, the election of national officers and the necessity of getting ready to meet the anthracite operators are the causes for the large attendance.

## HOPKINS STILL HAS FIGHT ON HIS HANDS

SPRINGFIELD, Ill., Jan. 19.—Seventy-five Republican senators and house members met in senatorial caucus tonight and unanimously agreed to support the candidacy of Senator Hopkins for re-election. In addition to the seventy-five actually present, two votes were cast in the caucuses from absentees also agreeing to the choice of the caucus, making a total of seventy-seven. This makes Mr. Hopkins the overwhelming candidate, but does not insure his election, as he needs 103 votes in joint session.
